

## Send a Talking *Shanah Tovah!*

Use the free app Fotobabble to send a talking *Shanah Tovah* via email to friends and family around the world. See a sample [here](#).

### You will need:

**Fotobabble** (Free, available for iPhone, iPad, and iTouch)

\*\*After downloading Fotobabble, tap “Settings” and adjust the “Public” setting to “Off.”

\*\*Free account creation is required to save and send with Fotobabble.

### To Create your Talking *Shanah Tovah:*

1. **Decide what picture you would like to have as a background.** You can take a picture of your family, artwork you created, or items that you use to celebrate *Rosh HaShanah*.
2. **Add a Photo and Edit:**
  - a. Tap “**Take a New Photo**” to take a new picture or tap the paper stack icon to access photos on your camera roll. Select the photo.
  - b. Tap “**Edit**” to add enhancements, effects, frames, stickers, and text. You can also crop your picture, fix red-eye, and draw on your photo. Swipe left and right to view all editing options. Tap “**Done**” when you have finished enhancing your photo.  
**Note:** There are a limited number of free enhancements and stickers. More can be purchased within the app for nominal fees.
  - c. Tap “**More**” to choose a background theme.
3. **Think about what you want to say or sing.** Think about and/or write down what you would like to say. Make a script or practice singing your *Shanah Tovah* message.
4. **Record your *Shanah Tovah* message:**
  - a. Tap the red microphone button to begin recording your message. Tap the screen again to stop recording. You can re-record your message before you send it as needed.
5. **Share your *Shanah Tovah* with family and friends**
  - a. Tap “**Share**.”
  - b. Log in to your Fotobabble account if you are not already logged in.
  - c. **Be sure to turn the Public setting to “Off.”**
  - d. Tap on “**My Fotobabble**” to change the caption/title of your message.
  - e. Tap “**Email**” to send your *Shanah Tovah!*
